

Washington State Department of Personnel  
Class Specification

**MASON/PLASTERER LEAD**

617G

**Abolished: Adopted 08/13/2009, Effective 08/14/2009**

**Definition:**

This is the leadworker level of the series. Leads and works with masons and plasterers to perform journey-level work in plastering, cement finishing, brick and block laying, and related work.

**Typical Work:**

Performs all duties of a Mason/Plasterer; leads assigned personnel in the performance of work;

Assures adherence to safety rules and precautions by assigned personnel;

Develops preliminary cost estimates for installation and repair;

Develops methods and procedures to be followed by assigned personnel;

May perform work in other trades;

Performs related duties as required.

**Knowledge and Abilities:**

Knowledge of: standard practices, methods, materials, tools, and equipment of masonry and plastering trades; safety precautions.

Ability to: work from blueprints, plans, and sketches; apply plaster and stucco; estimate time and materials needed to complete jobs; work on scaffolds.

**Legal Requirement(s):**

There may be instances where individual positions must have additional licenses or certification. It is the employer's responsibility to ensure the appropriate licenses/certifications are obtained for each position.

**Desirable Qualifications:**

Positions typically require one year, full-time experience as a journey mason and plasterer or equivalent trade skill. Possession of a valid motor vehicle operator's license may be required.

Equivalent education/experience will substitute for all minimum qualifications except where there are legal requirements, such as a license/certification/registration.

**Class Specification History**

New class adopted January 3, 1973.
