Executive Summary 3

Section A: State Workforce Headcount by Agency7

Section B: Performance-Based Incentives and Recognition13

Section C: WMS Growth and Development Increases225

About this Report

This first annual Performance-Based Incentives and Recognition Report is produced by the Washington State Department of Personnel as required by Engrossed Substitute House Bill 2049, which was passed by the Legislature and signed into law by Governor Gregoire in 2009.

This report presents information for executive branch agencies only. Data for executive branch agencies includes both permanent and non-permanent employees. It does not include information about higher education institutions, the judicial branch, and the legislative branch.

Unless otherwise noted, data is presented on a fiscal year basis (July 1st through June 30th). The report focuses on FY 2009, with comparison to FY 2008 where applicable. The primary source of the data is the DOP Human Resource Management System (HRMS), which is the central personnel and payroll system for state agencies.

Publication and Contact Information

This publication is available on the Department of Personnel website at: <http://www.dop.wa.gov>

Executive Summary

Background

This report is submitted in adherence to Engrossed Substitute House Bill 2049, Chapter 534 2009 Laws, which became effective July 26, 2009. This law requires the Department of Personnel (DOP), in cooperation with state agencies, to report annually to the Governor and the Legislature the following information:

- Number of State Employees: The number of classified employees, including Washington Management Service (WMS), the number of exempt employees (hereinafter referred to as “at-will”) in each agency, and the change compared to the previous report;
- Performance-based Incentives and Bonuses: The number of bonuses and performance-based incentives awarded to state agency employees, the base wages of those employees, and the cost of each recognition or incentive awarded.

For purposes of this report, the Department of Personnel interprets “Performance Based Incentives and Bonuses” to include awards or lump sum payments that appointing authorities have discretion to grant to employees in recognition of special job performance, outstanding achievements, and special accomplishments under RCW 41.60.150. Such payments do not become a permanent addition to base pay.

This Executive Summary shows this information at a high level. More detailed information and data for each state agency is provided in Sections A-C of this report.

Number of State Employees (Section A)

The classified workforce are those covered by the civil service law (RCW 41.06) or similar statutory provisions. The classified workforce includes WMS. At-will personnel are those who are exempt from civil service laws, and include managers as well as non-managerial employees. As of June 30, 2009, 94.4 percent of the workforce was classified and 5.6 percent was at-will.

	Classified Workforce			At-Will Workforce			OVERALL TOTAL
	Classified Employees	Classified WMS	Total Classified	At-will Employees	At-will Managers	Total At-Will	
2008	58,095	4,713	62,808	2,616	1,290	3,906	66,714
2009	57,131	4,511	61,642	2,396	1,252	3,648	65,290

The state workforce declined by 2.1 percent between June 30, 2008 and June 30, 2009.

In the same time period, 92.8 percent of the workforce was non-managerial employees. Managers (i.e., those who manage people) comprised 7.2 percent of the workforce. This

included 1,252 at-will managers and 3,473 WMS managers. It is noted that about three-fourths of WMS are managers, the rest (1,038) are high level program and policy experts as defined in RCW 41.06.022. The proportion of the workforce that is WMS has steadily declined over the past four years. In FY 2005 it was 8.5 percent; in FY 2009 it was 6.9 percent.

Section A of this report contains detailed information on state workforce headcount.

Executive Summary (continued)

Performance-Based Incentives and Recognition (Section B)

There is no clear definition in law or rule of the terms “performance-based incentives” and “bonuses”. For purposes of this report, the Department of Personnel interprets these terms to include awards or lump sum payments that appointing authorities have discretion to grant to employees in recognition of special job performance, outstanding achievements, and special accomplishments under RCW 41.60.150. Such payments do not become a permanent addition to base pay.

During FY 2009, 24 agencies presented awards to their employees. Award amounts were as follows:

- 9,323 awards were made, totaling \$1,900,540. This is 0.09 percent of the state’s annual payroll.
- The average award amount was \$204, and ranged from \$5 to \$13,000.
- 10 percent of awards went to managers; 90 percent went to employees.¹
- In general, 14.3 percent of the workforce received an award. Note, however, that some individual employees received more than one award during the FY 2009 time period.

The authority to provide these awards is found in both statute and rule. In addition, collective bargaining agreements for Washington State Troopers provide for specific recognition awards. A description of the types of awards and the legal authority to give those awards is outlined in Section B of this report. In summary, awards can be given for the following reasons:

- Recognition of special achievements, safety performance, longevity, outstanding public service. Not to exceed \$200 per award.
- Recognition of outstanding performance or the achievement of pre-defined work goals.
- Lump sum payment to address recruitment or retention issues.

¹ Estimated based on recipients’ job titles.

Executive Summary (continued)

WMS Growth and Development Increases (Section C)

Most general service classified employees (non-WMS) receive incremental salary increases each year until they reach the top of their salary range. These increases are automatic and are a permanent addition to base pay. As of December 9, 2009, it is estimated 23.2 percent of classified general service employees were eligible for a 5.0 percent step increase; and 14.5 percent were eligible for a 2.5 percent step increase.

Washington Management Service employees (who are also classified) do not receive automatic incremental increases. Rather, the appointing authority has discretion to grant WMS employees a progression increase. Progression increases are added to base salary due to “growth and development” in the job. This is authorized by WAC 357-58-095(1).

ESHB 2049 does not require inclusion of data on WMS growth and development increases in this annual report. However, the Department of Personnel is including this information since it is a discretionary increase to WMS salaries and based, in part, on performance.

During FY 2009:

- 21 agencies granted growth and development increases to their WMS employees
- 597 or about 13.3 percent of WMS employees received growth and development increases
- The average increase was \$237 per month
- The total amount of WMS growth and development increases was \$1,696,079

On February 18, 2009, the Legislature passed, and the Governor signed into law, ESSB 5460, which placed a moratorium on any type of salary increase for all managers and at-will employees until February 2010. This legislation did not amend RCW 41.60.150 which authorizes agencies to give recognition awards for accomplishments, including outstanding achievement, safety performance, longevity, outstanding public service or service as employee suggestion evaluators and implementers. Recognition awards under RCW 41.60.150 are limited to \$200 per award and may be in the form of cash or other items.

Detailed information on WMS growth and development increases is included in Section C of this report.

Section A: Number of State Employees

Section A provides detailed information about the number of state employees using actual headcount data – not positions or FTE’s. A comparison between FY 2008 and FY 2009 is provided (as of June 30, the last day of each fiscal year).

Types of Employment

Overall, state employees are either “classified” or “at-will”. Classified employees are those who are subject to the civil service law, RCW 41.06, or similar statutory provisions. At-will employees are those who are exempt from civil service provisions, and serve at the pleasure of the appointing authority.

Classified employees make up 94.4 percent of the executive branch workforce. Two-thirds are represented by unions. Washington Management Service (WMS) employees are included in the classified service. WMS employees are not represented.

At-will personnel make up 5.6 percent of the workforce. Non-managerial at-will employees include Assistant Attorneys General, seasonal workers, executive support, and various others. At-will managers include elected and appointed officials and agency senior managers. The at-will workforce is not represented.

Overall Headcount - (data as of June 30 of each year)

	<u>2008</u>	<u>2009</u>	<u>Difference</u>
Classified Workforce			
Classified Employees	58,095	57,131	(964)
Classified WMS	4,713	4,511	(202)
Total Classified Workforce	62,808	61,642	(1,166)
At-Will Workforce			
At-Will Employees	2,616	2,386	(220)
At-Will Managers	1,290	1,252	(38)
Total At-Will Workforce	3,906	3,648	(258)
Total Executive Branch Workforce	66,714	65,290	(1,424)

A breakdown of the number of state employees in each executive branch agency begins on the following page.

Section B: Performance-Based Incentives & Recognition

Section B details the number of awards given to state agency employees, the base wages of those employees and the cost of each award. Information is provided for FY 2009 (July 1, 2008 through June 30, 2009).

There is no clear definition in law or rule of the terms “performance-based incentives” and “bonuses”. For purposes of this report, the Department of Personnel interprets these terms to include awards or lump sum payments that appointing authorities have discretion to grant to employees in recognition of special job performance, outstanding achievements, and special accomplishments under RCW 41.60.150. Such payments do not become a permanent addition to base pay.

During FY 2009, 24 agencies presented awards to their employees. Award amounts were as follows:

- 9,323 awards were made, totaling \$1,900,540. This is 0.09 percent of the state’s annual payroll.
- The average award amount was \$204.
- 10 percent of awards went to managers; 90 percent went to employees.²
- In general, 14.3 percent of the workforce received an award. Note, however, that a few individual employees received more than one award during the FY 2009 time period.

² Estimated based on recipients’ job titles.

Types of Awards

The authority to provide these awards is found in both statute and rule. In addition, collective bargaining agreements for Washington State Troopers provides for specific recognition awards.

Award / Authority	Description	Number of Awards	Total Amount	Average Award
Cash Recognition RCW 41.60.150	Payment for outstanding achievements, safety performance, longevity, outstanding public service, or service as employee suggestion evaluators and implementers. Cash recognition awards may not exceed \$200 in value per award.	8,097	\$721,567	\$89

*Some employees received more than one award in the year. They are counted for each instance awarded.

**WSP awards for Trooper of the Year, Certified Technician of the Year, and Auto Theft of the Year are awarded to one recipient and paid in twelve installments for the year awarded.

Section C: WMS Growth & Development Increases

Under DOP's interpretation of "bonuses and performance based incentives", ESHB 2049 does not require inclusion of WMS growth and development increases because these are changes to base salary. However, in the spirit of transparency, the Department of Personnel is including this information since it is a discretionary increase to WMS salaries and is based, in part, on performance.

Most general service classified employees (non-WMS) receive incremental increases each year until they reach the top step of their salary range. These step increases are a permanent addition to base pay. As of December 2009, 23.2 percent of classified general service employees were eligible for 5.0 percent step increase; and 14.5 percent were eligible for a 2.5 percent step increase.

Washington Management Service employees do not receive automatic incremental increases. Rather, the appointing authority has discretion to grant WMS employees with a progression increase to base salary due to "growth and development" in the job. This is authorized by WAC 357-58-095(1).

During FY 2009:

- 21 agencies granted growth and development increases to their WMS employees
- 597 or about 13.3 percent of WMS employees received growth and development increases
- The average increase was \$237 per month
- The total amount of WMS growth and development increases was \$1,696,078
